The Soil and Water Conservation Society (SWCS) is a nonprofit scientific and educational organization that serves as an advocate for natural resource professionals and for science-based conservation policy. SWCS fosters the science and art of soil, water, and environmental management on working lands to achieve sustainability. SWCS members promote and practice an ethic that recognizes the interdependence of people and their environment.

Contents

Foreword / Craig Cox **vii**

Preface / Max Schnepf **ix**

1 What should we measure, and how, to account for environmental effects?

Ecosystem services in agricultural landscapes / Peter Groffman, Paul Capel, Kurt Riitters, and Wanhong Yang **3**

Roundtable **16**

Integrating the biophysical and social sciences / K.M. Sylvester and C.L. Redman **17**

What science can and cannot provide policymakers / Otto Doering **21**

2 Methods for environmental management research at landscape and watershed scales

New approaches to environmental management research at landscape and watershed scales / G. Philip Robertson, L.Wesley Burger Jr., Catherine L. Kling, Richard Lowrance, and David J. Mulla **27**

Roundtable **51**

Coping with the data dilemma / F.J. Pierce, P. Nowak, and P.E. Cabot **52**

3 The science of targeting within landscapes and watersheds to improve conservation effectiveness

The science of targeting within landscapes and watersheds to improve conservation effectiveness / Todd Walter, Mike Dosskey, Madhu Khanna, Jim Miller, Mark Tomer, and John Wiens **63**

Roundtable **90**

Buying environmental services: Effective use of economic tools / Roger Claassen **92**

The disproportionality conundrum / P. Nowak and F.J. Pierce **104**

4**Realistic expectations about the timing between conservation implementation and environmental effects**

Realistic expectations of timing between conservation and restoration actions and ecological responses / Stan Gregory, Arthur W. Allen, Matthew Baker, Kathryn Boyer, Theo Dillaha, and Jane Elliott **115**

Roundtable **145**

The promise of adaptive management / Mary C. Watzin **147**

The Chesapeake Bay experience: Learning about adaptive management the hard way / Thomas W. Simpson and Sarah Weammert **159**

5**Research information needs: Constituency perspectives**

A local stakeholder perspective / Steve John **173**

A state agency perspective / Todd Ambs **178**

A Natural Resources Conservation Service perspective / William E. Puckett **181**

A policymaking perspective / Anne Simmons **183**

Concluding remarks / Craig Cox **185**

Contributors **187**

Index **191**
